BLANCO ARE THE EXPERTS.

Drink. Prep. Clean. Everything you need, all in one place. Sink, tap, integrated organisation and waste management, seamlessly combined in the BLANCO UNIT for a stunning, creative kitchen hub at the heart of your home.

Discover more at blanco.co.uk

GERMANY
SINCE 1925

As a German company, founded nearly a century ago, we are among the world's leading manufacturers of kitchen taps, sinks, and integrated waste and organisation systems.

We are passionate about the heart of your kitchen, the sink-space is the hub, where tasks need to run smoothly and efficiently. It's the most important place in the kitchen, and our many years of experience in cutting-edge technology can make it even better.

Welcome to The BLANCO UNIT Inspirations Collection. Did you know that we spend more than half of our time in the kitchen using the sink, tap and waste area? Which is why BLANCO focuses on improving how you can use this space. Adding intelligent features, introducing new designs and innovative materials to make kitchen life easier, everyday.

With the BLANCO UNIT it all flows naturally. Sinks, taps and waste management systems are the most commonly used items in the kitchen. However, they are rarely given the consideration during planning that they deserve.

We're looking to change that with the BLANCO UNIT: seamless solutions for a creative yet practical kitchen hub at the heart of your home.

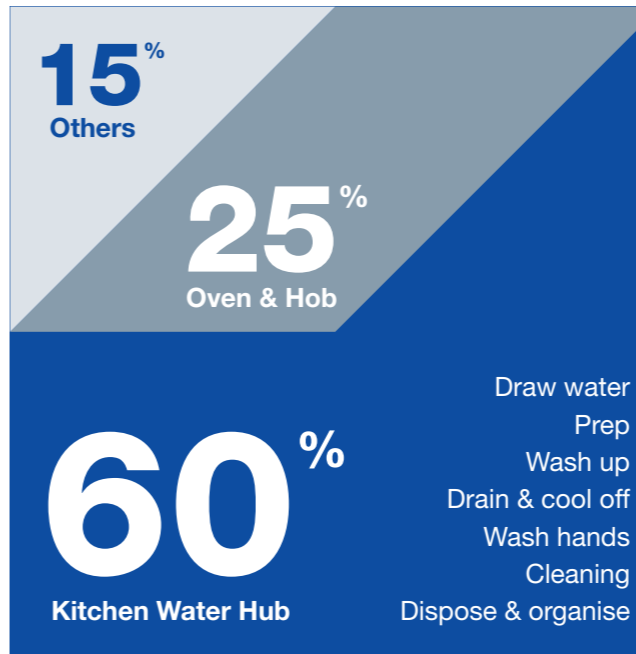

The BLANCO UNIT combines our premium products together, letting you choose the right items to suit your kitchen style and lifestyle. There are different elements you need to consider when putting together your ideal kitchen hub. On the following pages we're providing some curated inspiration to help choose your perfect BLANCO UNIT.

WHAT IS THE BLANCO UNIT?

Everything you need for your kitchen life and lifestyle, all in one place.

Tap: drink.hot EVOL-S Pro in black matt
Sink: ETAGON 500-U in stainless steel
Waste System: SELECT II Compact 60/2

Where we spend our time in the kitchen in the UK

DRINK. PREP. CLEAN.

With the BLANCO UNIT you can create the perfect place to drink, prep and clean, that fits your style and your lifestyle. Day-to-day drink making, food preparation and cleaning now take place at a sophisticated sink area, combining all three tasks to perfection. Vegetables are peeled, washed and off-cuts disposed of in just a few simple movements. Tea made simple with a boiling water tap, cool drinks created with pure filtered water and life made easier with features including flexible or pull-out sprays.

The space under the sink, that no-go-area of chaotic (but important) storage becomes perfectly tailored with an integrated waste, in-cabinet organisation or food waste disposer.

All of this with millimetre precision, premium quality and ingenious ideas to make kitchen life easier everyday.

And within this special BLANCO Inspirations Collection we will be showcasing how the BLANCO UNIT can fit seamlessly and stylishly within any kitchen design you choose.

A PERFECT COMBINATION.

We spend about 60% of our time in the kitchen at the sink. It's where we fill our glasses, prepare food, rinse dishes, get rid of food waste, store cleaning products and separate the recycling. So it's important to ensure that things happen quickly and efficiently here. Having everything you need within easy reach and working together smoothly is key.

With the BLANCO UNIT daily cooking, food preparation and cleaning become simply easy, saving you space, energy and time, making those essential daily tasks an absolute breeze.

Sink: ETAGON 6 in SILGRANIT® rock grey

THINGS TO CONSIDER WHEN CHOOSING YOUR BLANCO UNIT.

It is essential to be aware of the cabinet width in which your sink will be installed. The bowl, (or bowls in the case of a multi-bowl sink), will need to fit into this space. Each sink in this brochure will show a minimum cabinet required to house it successfully.

STEP ONE: SELECT YOUR TAP

Are you looking for instant true – 100°C water, the highest quality cold filtered water, or perhaps you want both? Do you need a pull-out spray, or want a semi-professional style tap?

We have a huge selection of top-quality mixer taps, with award-winning designs – find the ideal tap for your kitchen. But, before choosing your BLANCO tap it is essential to check whether you have a high or low pressure water system. More information about this is on page 47.

INSTALLATION FORMATS

Inset sinks
Inset sinks are installed from above into a pre-prepared hole in the worktop. These sinks are compatible with any work surface, including laminate. It gives you the widest range of sink shapes, sizes and styles to choose from. The frame of an inset sink sits on top of the work surface.

Undermount bowls
Undermount sinks are installed underneath the work surface and therefore require a solid surface worktop such as granite or wood; they are not compatible with laminate work surfaces.

Belfast / apron front bowls
Belfast sinks can be fitted undermount, as pictured above or inset with a slight raised edge profile. Belfast sinks are either 'dropped-on' to a purpose-built cabinet or by using installation brackets.

STEP TWO: CHOOSE YOUR SINK OR BOWL

BLANCO sinks and bowls are available in an array of different sizes, with a range of installation methods, colours and multi-functional solutions for every standard base cabinet. Whether you are creating a contemporary space and want the latest in undermount designs or stunning inset sinks with drainers, or if you want a farmhouse style bowl for a more traditional look – we have them all.

Three high-quality materials also offer you the option of designing the BLANCO UNIT your way: Beautiful SILGRANIT® stone composite, timeless stainless steel or luxurious ceramic. The choice is yours.

STEP THREE: WASTE LESS SPACE

Reclaim that no-mans-land area under your sink with BLANCO waste organisation systems and food waste disposers. Whether you are looking to organise your cleaning products, store pet items or sort your recycling, we have a system for you. The BLANCO range of organisation and waste management systems give you options for most standard sized, hinged door or pull-out drawer cabinets.

And food waste disposers (FWD) are very convenient when it comes to disposing of leftovers quickly, hygienically and easily. They cut down the amount of waste in the organic waste bin and lower the amount of material sent to landfill sites.

BLANCO UNIT INSPIRATIONS.

We have curated a range of BLANCO UNITS to reflect on our latest innovations and kitchen designs so you can create the perfect BLANCO UNIT to match your space and needs. Additionally you can create your own ideal BLANCO UNIT from browsing our range of products at blanco.co.uk.

Inspiration#1.

Intense, modern, luxurious... black is indisputably elegant. Often used within interior design to visually ground a room with its depth of tone, it can be used as the main aesthetic or to make a bold feature in any space.

The drink.hot EVOL-S Pro is a gamechanger for the modern kitchen, providing the exact amount of boiling hot or filtered water you need at the touch of a button. Paired with the ETAGON 500-U in SILGRANIT® black and a SELECT II Compact 60/2 waste organisation system, this combination of tap, sink and waste system delivers a practical and multi-functional, yet stylish BLANCO UNIT.

BLANCO drink.hot EVOL-S PRO

Key Features	Specification
• 4-in-1 semi-professional tap with 100°C filtered boiling, filtered cold, hot and cold water	Hot 
• Intuitive measuring function delivers an exact volume of filtered boiling or cold water	Volume 
• Five stage filter reduces limescale and improves water taste	Filter System 
• Separate insulated spout for filtered drinking and boiling water, which can be used simultaneously with the flexible spout which delivers hot and warm mains water	High Pressure 
	Extendable spray 

Colour shown is black matt. Product code: 526635. Also available in PVD steel and satin gold.

BLANCO ETAGON 500-U

• Suitable for a pull out cabinet door

Product code: 526207. Discover other options to finish your BLANCO UNIT – for inspiration refer to pages 40 to 41 or visit blanco.co.uk

Inspiration#2.

Black is sleek, contemporary and a popular choice in kitchen design. Black plays well with a myriad of colours, but if you want a truly exquisite and even elite kitchen design, consider adding silver features.

The drink.hot EVOL-S Pro semi-professional 4-in-1 hot tap not only looks stylish in PVD steel but has a measuring function, multi-stage filtration and a touch-safe spout. Coupled with the SILGRANIT® ETAGON 500-U sink in black and a BOTTON II 30/2 waste organisation system, this composition of tap, sink and waste offers an innovative, multi-functional and contemporary BLANCO UNIT.

BLANCO drink.hot EVOL-S Pro

Key Features	Specification
• 4-in-1 semi-professional tap with 100°C filtered boiling, filtered cold, hot and cold water	Hot

Inspiration#3.

A softer alternative to black, grey is very versatile in kitchen design, bringing some soft luxury. Using grey in your kitchen is a popular choice because it's neutral enough to complement many colour palettes and can provide warm undertones. And new SILGRANIT® volcano grey can be combined with worktops and cabinets in brown and grey tones of all intensities and matches well with dark woods.

The LINUS-S has a minimalist design and when paired with a SUBLINE 500-U sink, both in volcano grey, you have a harmonious but strong combination. Silgranit sinks and matching taps perform beautifully for a hard-working and aesthetically pleasing BLANCO UNIT. Especially when combined with the FWD Medium for the utmost efficiency.

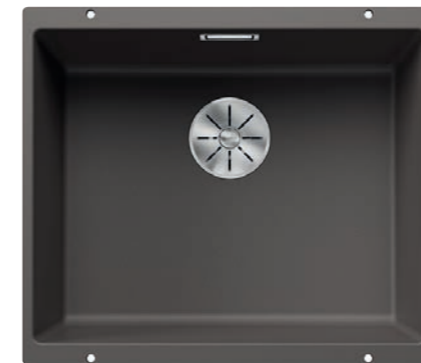

BLANCO LINUS-S

Key Features	Specification
<ul style="list-style-type: none"> Minimalist design Stylish L shaped spout with extendable spray head High quality metal spray High spout for easy filling Can be colour matched with the sink for seamless design 	High Pressure

Colour shown is volcano grey. Product code: 527353. Discover more Silgranit sink colour options on page 42. Also available in ceramic colours. Different sizes, double bowl, bowl and a half options and inset. An additional, optional InFino® colour set can be purchased to perfectly match your style. Product shown is Black Edition: 239975.

BLANCO FWD MEDIUM

Key Features
<ul style="list-style-type: none"> Safe, hygienic, clean and convenient way to dispose of leftover foods Grinds down food waste (without the need of knives or blades) and deposits it into the drain Reduces the amount of food waste sent to landfill sites Quiet operation with powerful AC induction motor

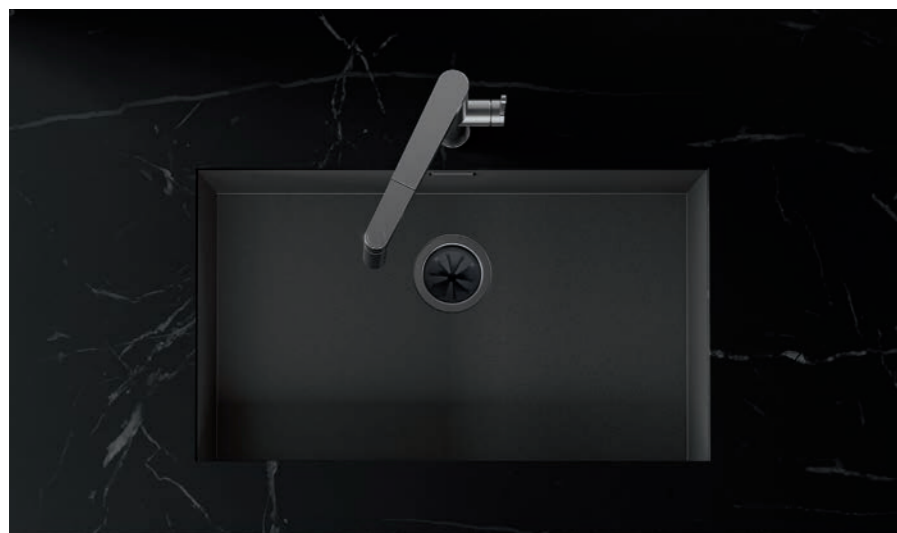

Product code: 456439. Discover other options to finish your BLANCO UNIT – for inspiration refer to pages 40 to 41 or visit blanco.co.uk

Inspiration#4.

Create a contemporary space by accenting your dark kitchen with some silver and steel hues. These accents will really elevate a dramatic black kitchen, adding distinction and sophisticated features.

The PANERA-S is a precision crafted designer mixer tap of striking elegance in solid stainless steel. And the spacious ZEROX 500-U is equally stunning with its high quality execution in dark steel. These two together will definitely make a contemporary statement in your kitchen. Finishing off with the FWD Max and two BOTTON II 30/2 waste organisers, you have a multi-purpose BLANCO UNIT with style and substance.

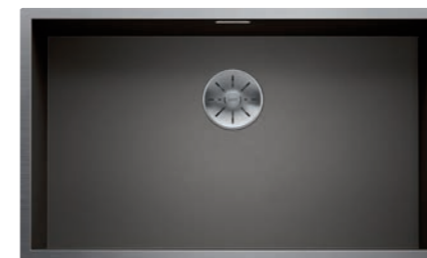

BLANCO PANERA-S

Key Features	Specification
<ul style="list-style-type: none"> Designer mixer tap of striking elegance with J shaped spout High quality execution in solid stainless steel Innovative control concept: easy to pull spray hose from the front Changes from clear spray to shower at the touch of a button Seamless visual integration of the shower button 	High Pressure 
	Extendable spray

Inspiration#8.

Industrial style kitchens use simple features with 'raw' styling to create a space that feels open and easy to navigate. Urban kitchens are designed to be practical and robust, with hardwearing surfaces and appliances that can withstand the rigours of daily use. But you can still make this kitchen style feel slick and modern by choosing appliances in robust colours like black and using texture like wood and exposed brickwork.

The black matt FONTAS-S II Filter 3-in-1 mixer tap provides cold, warm and filtered water out of a pull-out hose for maximum efficiency. Paired with the NAYA 6 in SILGRANIT® black you have a sleek and modern combination that would suit any industrial style kitchen. Add a BOTTON II 30/2 and you have sleek but practical BLANCO UNIT.

BLANCO FONTAS-S II FILTER

Key Features	Specification						
<ul style="list-style-type: none"> 3-in-1 mixer tap providing cold, warm and filtered water out of a pull-out hose Separate levers: cold and warm water right, filtered water left Multi-stage filter reduces limescale and improves taste Longer usage cycles thanks to higher filter capacity Needs to be installed with a BLANCO water filter system 	<table border="1"> <tr> <td>Filter System</td> <td></td> </tr> <tr> <td>High Pressure</td> <td></td> </tr> <tr> <td>Extendable spray</td> <td></td> </tr> </table>	Filter System		High Pressure		Extendable spray

BLANCO SONEA-S Flexo

Key Features	Specification
<ul style="list-style-type: none"> • Classic semi-professional tap design with accents in black for the modern kitchen • High quality design in solid brushed stainless steel • Flexible black hose provides optimal range of motion • Dual spray with easy switch from standard stream to powerful rinse spray • Precise magnetic holder ensures convenient hose docking 	High Pressure 
	Extendable spray 
	Pull-out dual spray 

Tap shown is solid brushed stainless steel. Product code: 526616.

Inspiration#9.

Do you love the purity and elegance of a white kitchen but want to add some warmth and variety? Visually break up the different sections of the kitchen with a mix of textures and finishes, adding accents of neutral colours like black, grey and silver. This way you'll maintain the simplicity of a white colour scheme but with a bit of diversity.

The SONEA-S is a classic semi-professional tap design with accents in black for the modern kitchen. It's a high quality design in solid brushed stainless steel. The METRA XL 6 S in white is a practical and spacious sink. Add a FWD Medium and there you have a flexible and multi-functional BLANCO UNIT that certainly makes kitchen life easier.

BLANCO METRA XL 6 S

Inspiration#11.

Warm neutral hues are a strong current trend in kitchen design. BLANCO's new SILGRANIT® soft white shade is incredibly easy to live with and can be combined with warm white worktops, paint and cabinet doors for a timeless, unique look with warm neutral hues.

The LINUS-S has a minimalistic yet distinguished design and when paired with a SUBLINE 500-U sink, both in soft white, you have a harmonious colour matching union. SILGRANIT® sinks and matching taps perform beautifully for a hard-working and aesthetically pleasing BLANCO UNIT. Especially when combined with the BOTTON II 30/2 and Orga Shelf for added functionality and ease.

Inspiration#12.

It can be hard to get the perfect balance in your kitchen between light and dark tones, thereby creating some visual contrast. Light shades are a winning colour choice for kitchens, they offer a contemporary and clean look. And by adding striking dark features throughout, this makes a really stylish contrast that feels very modern.

The MAX II in PVD steel is a practical and elegant tap. Couple it with the SONA 6 S in SILGRANIT® black — a solid, hardy sink with a roomy main bowl and practical additional bowl. Add on the FWD Medium and the BOTTON II 30/2 and you have a very solid, functional BLANCO UNIT.

BLANCO SONA 6 S

Key Features	Specification
<ul style="list-style-type: none"> • Stylish SILGRANIT® inset sink designed for 600mm cabinets • Kitchen tasks are made much easier by the roomy main bowl and practical additional bowl • Generous, strikingly-profiled tap ledge • Bowl depth 190mm / 120mm 	Cabinet Size Minimum Requirement mm 600

Inspiration#15.

Metal is a beautiful and stylish material elegantly integrating into modern kitchen designs. Stainless steel is one of the most popular choices because it's very practical and is perfect for high-tech kitchens. Stainless steel accents are a great way to make your kitchen feel smart and sophisticated.

The CLARON 400-U in classic stainless steel, has an elegant design without sacrificing functionality. Paired with the SOLENTA-S Senso — which is a sophisticated semi-professional tap with sensor technology for added ease — and you have a timeless combination. Add the FWD Max and you have a powerful and very hygienic BLANCO UNIT.

BLANCO SOLENTA-S Senso

Key Features	Specification
• Semi-professional style single lever mixer tap	High Pressure 
• Manual or hands-free Start-Stop mode with sensor technology	Extendable spray 
• High-quality stainless steel hose cover for more stability, ease of movement and cleaning	Pull-out dual spray 
• Pull-down with dual spray function and magnetic holder: easy switch from aerated stream to powerful rinse spray	Senso 

Tap shown is chrome. Product code: 455367. Also available in PVD steel.

BLANCO CLARON 400-U

Key Features	Specification
• Large bowl capacity	Cabinet Size Minimum Requirement mm 900*
• Concise 10mm corner radius for ultimate style – without sacrificing functionality	Undermount Installation type 
• Classic, timeless finish in stainless steel	
• Elegantly integrated InFino® basket strainer, making it easier to dispose of sink waste	
• Bowl depth 190mm	

Sink shown is in stainless steel. The lifestyle photography uses two of the CLARON 400-U. Product code: 521573. Also available in different sizes, as well as double bowl and bowl and a half options and inset. *This is for 2x CLARON 400-U. Chopping board not included. Multifunctional colander in stainless steel is an optional, additional handy accessory, product code: 514542.

BLANCO FWD MAX

Key Features
• Safe, hygienic, clean and convenient way to dispose of leftover foods
• Grinds down food waste (without the need of knives or blades) and deposits it into the drain
• Reduces the amount of food waste sent to landfill sites
• Ultra quiet operation with powerful AC induction motor

Inspiration#16.

Stainless steel is a classic choice that always looks stylish and elegant. It is also a very practical material, which is why it is so popular. Stainless steel is easy to clean and maintain, which makes it a great material for kitchen appliances and accessories, plus it complements any kitchen design scheme.

The robust ANDANO 500-U in classic stainless steel has an elegant design and high quality features. Combine it with the CATRIS-S Flexo FILTER in PVD steel, for a timeless pairing. It's a sophisticated semi-professional tap which dispenses filtered water directly out of the tap whilst still maintaining a refined design. Add the BOTTON II 30/2 and you have a practical and very hygienic BLANCO UNIT.

BLANCO CATRIS-S Flexo FILTER

Key Features	Specification
<ul style="list-style-type: none"> • 3-in-1 mixer tap in semi-professional design for cold, warm and filtered water • Flexible black hose provides optimal motion range • Dual spray with integrated flow stop: easy switch from standard stream to powerful rinse spray • Filtered water dispensed from separate spout • Precise magnetic holder ensures convenient hose docking • Multi-stage filter reduces limescale and improves taste • Needs to be installed with a BLANCO water filter system 	Filter System 
	High Pressure 
	Extendable spray 
	Pull-out dual spray 

Colour shown is chrome. Product code: 526706 and filter set code: 527453.

BLANCO ANDANO 500-U

ACCESSORIES TO MAKE KITCHEN TASKS EASIER

Choose from the BLANCO range of ingenious accessories to transform your sink into a multi-functional workplace in just a few simple steps. In order to make best use of the space over the sink, you can often use other sink accessories such as multi-functional colanders or a foldable grid. Even in small kitchens, these can provide additional working surfaces to carry out many tasks.

CHOPPING BOARDS

A wide variety of quality chopping boards are available – in a variety of woods, glass or high-quality plastic. These are specially made to be used over the sink or by the side, to allow for a flexible chopping space.

CORNER CADDY

Practical storage for washing utensils like cleaning products and sponges. Or the caddy can be used as a rinsing and draining colander for food and cutlery. Its secure grip and versatility means it can be placed anywhere around the bowl.

COLANDERS

A variety of stainless steel colanders allow for rinsing and draining pasta or vegetables right in the sink, making this kitchen task so much simpler.

FOLDABLE GRID

Transform your sink into a modern kitchen workspace with our foldable grids. These can be placed on the drainer, over the bowl or on the worktop, to use for draining washed items or filling up pots. It's easy to stow away and vary the positioning on the drainer, thanks to the practical folding function.

BLANCO FOOD WASTE DISPOSERS

A smart addition to your BLANCO UNIT. The most environmentally-friendly, time efficient and hygienic way to grind down and flush away food waste.

BETTER KITCHEN HYGIENE

Avoids the mess of traditional bins that often create unpleasant odours and bacteria growth.

SMARTER USE OF TIME

A quick and easy way to dispose of food during meal preparation, food waste just goes straight down the sink. Meaning less time is spent cleaning out your food waste bins.

SAFE AND SIMPLE TO USE

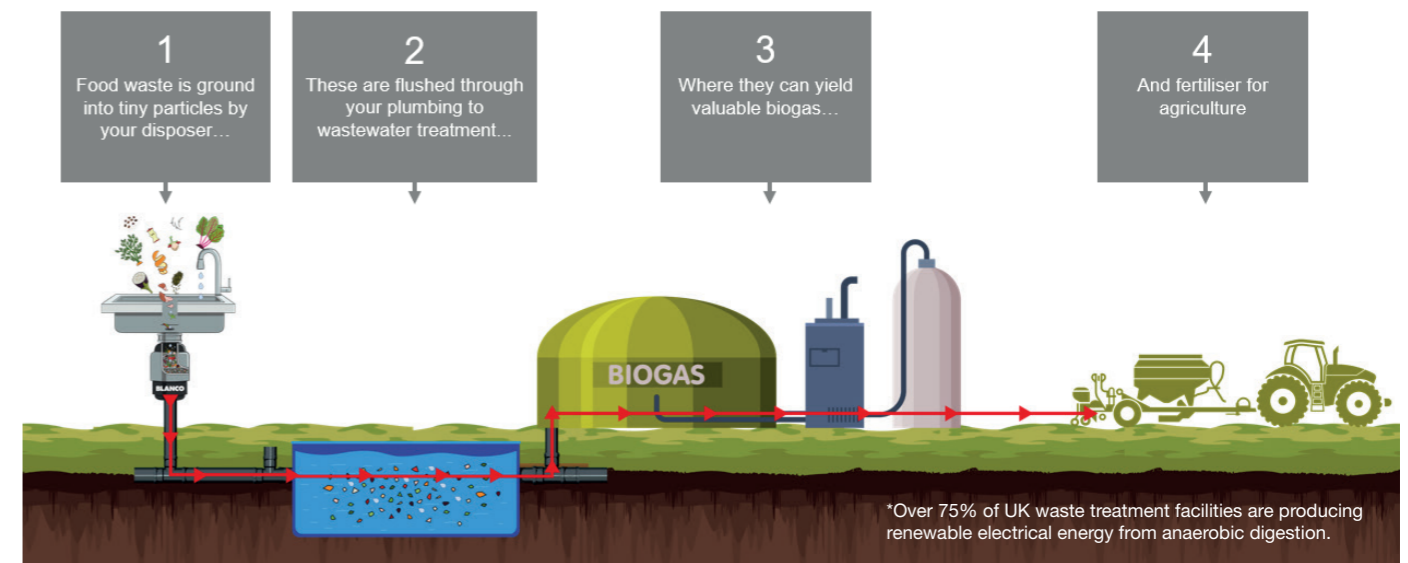

No knives or blades are used. All moving parts are blunt. Controlled by the touch of a button, with only cold running water needed to assist. Because the device is rinsed during the grinding process, it requires little additional care.

LIMIT YOUR LANDFILL

Ground-up food is flushed away into your regular system and treated at the water plant, usually by converting it into soil conditioner that can be turned into clean energy. The FWD is installed directly beneath the sink and grinds food waste so finely it flows through your sewage pipe easily.

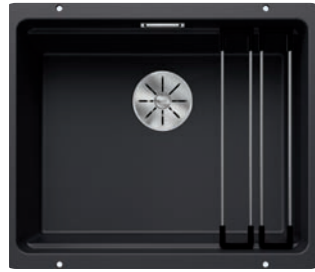

HOW YOUR FWD GENERATES GREEN POWER*

THE BLANCO FWD RANGE IN MAX, MEDIUM AND LITE FITS ALL BLANCO SINKS AND BOWLS.

BLANCO SILGRANIT® SINK COLOURS

Silgranit's beautiful, smooth and tactile surface is available in a range of design-oriented colours. Colour is such an important part of our lives, especially in our homes. It's a fundamental aspect of interior design and we use it as an expression of our own style. The palette of Silgranit sink colours runs from monochrome black and white, through to on-trend greyscale shades, into warm earth tones.

TAPS AND SINKS EXPLAINED

A key to important features and considerations.

We have highlighted on page 6 the importance of knowing your sink cabinet size and what type of sink installation format you are looking for, whether it is inset, undermount or Belfast (apron front bowl). Here is some additional information you'll need to think about when choosing your sink and tap.

TAPS

Water pressure

BLANCO has a range of taps suitable for low and high pressure systems. BLANCO considers taps 0.3 bar and below as low pressure.

High Pressure

Low Pressure

Features

Pull-Out Spray: Features a pull-out spray, useful for directional rinsing.

Extendable Spray: Features a pull-out spray hose for extended work area.

Solid Spout: Tap spout does not extend.

Senso Version: Includes hands-free Start-Stop mode with sensor technology.

INSET SINK PROFILES

BLANCO sinks come with a range of different profiles.

Standard: Edge is rolled over to meet the worktop.

IF and IF/A: Unique 1mm flat edge profile for inset flush installation.

Undermount: Installed underneath the work surface.

BOWL CONFIGURATION

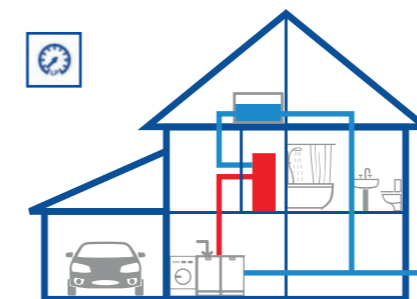

Select the correct sink configuration for your kitchen.

UNI (Universal) indicates an inset sink suitable for both left and right configurations.

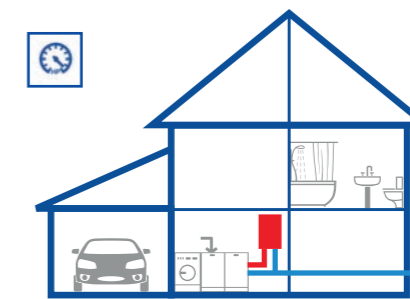

TAP FLOW RATES EXPLAINED

Before choosing your BLANCO tap it is essential to check whether you have a high or low pressure water system.

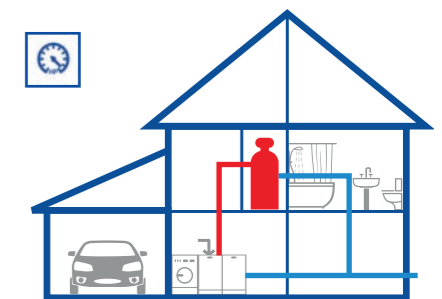

Low pressure (Gravity-fed system)

You have a cold water tank in your attic and a hot water tank in your airing cupboard. You should choose taps which state they are suitable for a low pressure system.

High pressure (Combi-boiler system)

You have a boiler unit but no hot water cylinder, the boiler unit is usually found in the kitchen and delivers hot water on demand. You should be able to choose from most of our taps.

High pressure (Pumped system)

You have a hot water cylinder with an expansion vessel on top (often called Megaflor), usually found in the airing cupboard, but you do not have a cold water tank. You should be able to choose any of our taps.

BLANCO UK Limited: The Inspirations Collection only represents a small selection from our UK range. If you require details about our complete range of sinks, taps, waste organisers, waste disposal units and accessories, please contact your local BLANCO dealer, or visit www.blanco.co.uk
